DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on February 5, 2007 has been entered.

Allowable Subject Matter

2. **Claims 19 – 39 and 41 – 46** (now respectively renumbered 1 – 15, 17, 16, and 18 – 27) are allowed.

3. The following is an Examiner's statement of reasons for allowance:

The closest prior art discloses a digital camera that displays warning messages and/or a set of revision suggestions that can be depicted by indicia or images or a combination of both on a camera display such that after an image is captured, a revision suggestion set is generated, saved to memory, and subsequently displayed so that each of the revision suggestions in the set are sequentially displayed.

However, the closest prior art does not teach or fairly suggest providing a user interface on a digital camera display having a composite image quality indicator configured to represent a plurality of image quality parameters, the image quality indicator having a plurality of portions, each of the plurality of portions displayable in a first state and a second state, wherein the

plurality of portions are displayed in the user interface simultaneously, and wherein a number of the plurality of portions displayed in the second state corresponds to a number of the plurality of image quality parameters determined to be stable.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
